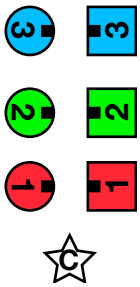
Ted's Triplet #3

Calvin Campbell



Ted Sennella wrote over thirty triplete dances. I can find many references to #3 and #7. I've tried to dance a couple others. #3 is a fun dance.

I've included two YouTube clips. The first clip (Click here) is one we use for exhibitions by the Colorado Dancers. The second one is of from a live dance. (Click here)

They both have some variation from the cue sheets. I have posted two examples of the cue sheets I found. (Click here) and (Click here).

In doing the research for this dance, I discovered an excellent animation website. (Click here). I suspect I will be spending some time there looking a different dances.
